

ASSEMBLY INSTRUCTIONS

NET INSTALLATION

- Feed the swaged end of the cable through the non winder post cap and onto the internal post hook.
- Feed the non swaged cable end through the winder post cap and into the hole in the drum gear (no need to cut excess cable off).
- Tension the cable by hand pulking so the minimum cable to wind around the drum.
- Turn the handle to take up the cable tension. the drum will only need a few revolutions to tension the cable.
